Have you ever asked yourself:

Why do I always get the guys I don't want,
and I never get the ones I do want?

Where are the real men, not the boys?

Why do some women get all the men?

How can I create a real and lasting
connection with a man?

How can I find the good ones?

Yes, there are still good men out there!
You just need to prepare to meet them,
and recognize them when you do.

Whether you know it or not, you have the power to ignite or extinguish the men in your life,
to ultimately inspire their passion for you and be warriors for your relationship.

This is an opportunity
to hear it from a great guy himself:

Dr. Amir Georges Sabongui will take you through
a unique day's workshop where you will learn:

- What makes women irresistible to men
- What a woman can do to attract quality men into her life
- How can each woman meet her perfect match
- What a woman can do to understand her mate
and create an enduring relationship

In addition, Dr. Sabongui will give you a chance to ask the questions that
you were always dying to have answered, and by a real man.

In the workshop we will explore:

- What are the qualities in you that men are truly looking for
- Understanding the language of men and
how to recognize a good one when you see him
- How to stand out from every other woman and
attract men to you every day
- How to make him melt when he's finally in front of you
- How to keep your power in the relationship and
not fall into the trap of pleasing him at all cost
- Personal challenges that may be standing in the way
of meeting your perfect man
